

Hops Like a Rabbit, Has Fins And the Habits of a Harlem Goat

Strange Animal Story Comes via Newark From a Freighter Just in From the Barbados.

"This is a story about a half animal and half fish that hops like a rabbit, bores like a mole and has fins, but has the habits of a Harlem goat," said a voice over the phone from Newark to-day. "The thing, whatever it was, was found aboard the freighter Bay Princess, which arrived at Port Newark this morning from Bridgetown, Barbados Islands."

The new nature faker, owner of the vessel, was told to continue within reason.

"Well," according to Chief Engineer Charles Weinert of the ship, "when the vessel was two days out from Bridgetown, officers and members of the crew discovered holes eaten in their clothing, papers chewed up and a 5-inch hole bored through the door of the pantry, in which remnants of crackers and sweets were strewn all over the floor."

"Then tiny leaks were discovered in various parts of the ship that resembled holes bored by a small gnat. The ship's officers were mystified until two days ago, just before they reached Quarantine, when a dead animal about the size of a large rabbit was found in one of the holds, about which were strewn fragments of crackers, papers, clothing and other things. Then the mystery was solved."

Mr. Weinert said the carcass was

thrown overboard, but now he wishes he saved it, so he could prove his story.

"Believe it or not."

Negro Hits Storekeeper Over Head With Lead Pipe.

A Negro, his clothing smeared with mortar, entered the second hand shoe store of Samuel Lefkowitz in the basement of No. 448 Seventh Avenue at six o'clock to-day and asked to see a pair of shoes for which he had bargained unsuccessfully yesterday. As Lefkowitz bent over to pick up the shoes the Negro struck him over the head with a lead pipe.

Lefkowitz fell screaming and his assailant without stopping to take money or property ran off up Seventh Avenue and escaped. Three attendants were taken in the shoe dealer's scalp.

THREE HURT IN AUTO WHEN HIT BY S. I. TRAIN

Accident Caused, Men Say, by Failure of Bell to Ring.

A Staten Island Rapid Transit train this morning struck an automobile containing three men at the Old Town crossing, Grassmere, hurled the vehicle a dozen feet, throwing the men out and injuring all of them. The victims claimed that the warning bell at the crossing failed to ring at the approach of the train but the railroad people deny this.

James Candrill, twenty-seven, of No. 128 Richmond Road, Grassmere, was driving the car. His left arm was fractured, his scalp cut and his body badly bruised. His brother Peter, of No. 39 Overlook Avenue, suffered a fractured right leg and scalp wounds and bruises, and Rayfield Scamls, of No. 235 Reddington Avenue, was picked up with a broken left arm and a cut scalp. All three were taken to Staten Island Hospital. They are employed in the financial district of Manhattan and were in the habit of going there every morning from Grassmere in the motor car.

LONDON, Sept. 26.—The first all-steel bombing airplane in the world was successfully flown at Norwich yesterday. Designed and constructed to the order of the Air Ministry, this airplane, though built entirely of steel, is actually lighter than similar machines of wood. Driven by two Napier engines totalling nearly one thousand horse power, it can carry several tons of bombs and has a range of more than one thousand miles.

BLIND WOMAN BURNED TO DEATH IN BROOKLYN

Mrs. Caroline Kelly, seventy-six, and blind, was burned to death in her apartment on the second floor of No. 474 Miller Avenue, Brooklyn, yesterday afternoon, when her clothing caught fire as she was lighting the gas range.

THE SELZ \$SIX

The Most Famous Shoe in America

To say that a shoe is the most famous in America is a tall order. And yet the assertion's true. To say that it's the most extraordinary value in shoes that's ever come within Gimbel ken is a bold statement. And yet the assertion's true. Superlatives must be used in this case. They're the only descriptives that will do. And stronger than any superlative is the Selz \$SIX itself.

The Best Leather: the Best Make and Style We've Seen: Yours for \$6.00 Tomorrow

The best brains of the shoe world co-operated with Selz to achieve this \$6 price. Trial and error. Work and beginning again. Finally a year ago the gravity process. And because of the elimination of lost motion—the best shoe possible. 14 styles to choose from. Conservative! Ultra! And all grades in between. And tomorrow \$6 settles this Winter's shoe bill for you.

The Selz \$FIVE Shoe

Just as the Selz \$SIX is the best six dollar shoe-buy we've ever seen, so the Selz \$FIVE is the best five dollar shoe-buy we've ever seen. Differs from the \$SIX only in the grade of leather.

The Selz Royal Blue

is the pennant winning battery of the Selz line. The best leather that comes ashore in it. The best possible leather that can fashion a shoe. Marked but \$8.50. But worth dollars more.
